Andante

p

I've traveled far and found man-y friends Friends that I tho't would be pals to the end But
When I am lone-ly I long for you Long for your smile to help me thru

when bus'ness failed and my mon-ey was gone I sought comfort from friends but found I had none I
When I am hap-py I know you are glad As your love is e-ter-nal ne'er tired or sad It's

tho't of you mother and knew you would care For sor-row or joy a-like would be shared
nice to have you for a pal mother dear Who gives me sweet comforting smiles for a tear

You've been a pal to me from the start The pal I've been longing for pal o' my heart
 You've been a pal to me from the start The pal I've been longing for pal o' my heart
